MAYOR E. W. STEVENS. If Sedala ever had a good mayor, and she certainly has had a number of them, that man is E. W. Stevens. He is a tireless worker, one of those man who realize that public improvements must be carried forward if a city would progress, and one who is always willing to take an active interest in every public enterprise.-Sedalia Gazette, (Republican), July 1, 1891.

Dean, from the Fourth ward, is the soming councilman.

Don't forget that some of the best people in Sedalia owe it to themselves to rebuke, at the polls, the charge that they are boodlums.

Taken from every standpoint, was i't that democratic meeting at the court house a rattler? Straws show which way the wind blow.

Remember, that when you scratch the democratic ticket, you scratch a ticket which repr. sents an administra on of progressiveness and of sound business policy.

At any rate the "wide open" Stevens administration paid off \$11,000 of the city's debt last year, it being a caving to the tax-payers of nearly DeLong means the upholding of good \$1,000 in interest.

The citizens of the first ward have before expressed confidence in Clem. Honkomp. He has been faithful to every trust, and they will return him to the council. There is no question on that point.

"hoodlums" when looking over the Bazoo. They make good Sunday reading and will be found among the best businers men in Sedal a.

"Tried and never t und wanting"that is the record of Chas. Carroll in the second ward. He has made one of the best of Sed lia's councilmen and the ward and the city generally know this fact.

Read what the substantial business men of Sedalia have to think of Mayor Stevens and his administraon. Such men don't talk for funthey mean business, and are working or the bast interests of Sedalia. This is official.

It is the generally accepted opinion set J. h : Cashman has made one of the most efficient and painstaking attorneys the city of Sedalia has ever before the people, and his majority will reach up in o the four figur es.

Daniel McKenzie is known to be a m of broad views-one who is caable and will look to the interests of entire city. While his election in s third ward is conceded, he has many friends who want him to get a majority.

knows some of the true inwardness of the great moralist's methods.

The insinua ion that those laboring men who are in favor of Mr. E. W. Stevens as a successor to himself will he induced to vote illegally is a great insult offered by the steering committee and the republica organ to the labor vote in this city. Rebuke such insults at the polls next Tuesday.

It is said that a certain notorious bawd of this city has declared her intention to bave a "high old time" this summer in case Z roast r Ferguson Bailey is elected. She reasons and reasons rightly that if she can rent a house from him and under the guise of his respectability, she will never be discovered as a fallen angel.

Z. F. Bailey says he "has never seen but one lewd woman in Sedalia to know her and she was pointed out to him on the street." How about Miss DeWitt, Judge, dear, when she was paying you rent month after month for her "establishment," did you not know her? Speak up like a man now and don't play the innocent dodge any longer.

J. hu DeLong will get the vote of every man in Sedalia who believes in sterling worth and peculiar fitness for the office of marshal. He is a brave, careful, sensible, honest gentleman, and his record is one which has the right ring about it A vote for John government.

Take a look at the names of the a flattering majority. It is not only to grin and bear it when we caught the railroad men that are his friends - h -. Now it is our chance and we are but it is the entire city.

> Judge Z roaster Ferguson Bailey is said to sit as unessy as a man who has one of Job's comforters. Take it coolly, Judge. people know you were forced into your present position by the "steering committee" and a few tricksters of like stamp, and they won't hold you responsible -not half so responsible as they hold you for doing

The organ and its crowd fought, bled and almost "bu'st" to insure a campaign of personalities and mud throwing. How do you like it by this time, neighbor-? Did you fondly imagine that it was a one-sided game. I id you suppose that while Mayor Stevens was being reviled, traduced and in every way abused that his supd. Co. is prepared to furnish the farmers of Pettis county and Central Miss uri with the best, most durable, and ornsmental Fence in the world

It is a combined Wire and Hedge Fence, known as the Westley Young Patent. The canes of the Hedge serve as living posts, and the strands of wire secured thereto make it an impenetrable and imperishable barrier against stock of all kinds.

We overcome all the objections to the old Hedge fence; under our system all side roots and heavy top are disposed of, and the hedge dwarfed, but does not defeat life of the canes of bedge as the old way of backing does, leaving a lot of dead capes, which when attacked by fire must result in the complete burning of the fence.

When the Hedge has been properly trained, plashed, dwarfed and pruned by our system, it has made a good protection against all intruders and given universal satisfaction. It has thoroughly convinced the farming community that in it we poss
